VARPVC VARVER VARPET VARINOX

... dal 2000 colore e innovazione!

...colour and innovation since 2000!

Varcolor, azienda del Gruppo Gabrielli, è specializzata nel rivestimento in continuo di prodotti piani. Fondata nel 2000, si è presto distinta come l'azienda più attiva del settore "acciaio prerivestito" grazie al suo carattere propositivo in ambito di ricerca e sviluppo di nuovi prodotti.

L'ampia gamma di prodotti soddisfa le esigenze di clienti che richiedono elevati standard di qualità tecniche, estetiche e massima affidabilità.

Il ruolo determinante svolto dall'area "ricerca e sviluppo" ha consentito a Varcolor di proporsi in anteprima assoluta sul mercato con una serie di prodotti di nuova concezione, con caratteristiche tecniche ed estetiche di prima qualità.

La missione Varcolor si prefigge di rivoluzionare il settore attraverso un nuovo orientamento al Cliente finale fornendo unitamente ad un prodotto di alta qualità, un servizio di assistenza tecnica e di consulenza da parte di professionisti qualificati. Tramite il rispetto dei tempi tecnici di produzione e di consegna dei suoi prodotti, Varcolor fornisce un ulteriore elemento di garanzia nel rapporto con la propria Clientela.

La nostra risorsa più importante sono le persone. L'azienda è composta da un Team giovane e motivato, fortemente orientato alla filosofia Varcolor: realizzare gli obiettivi aziendali attraverso la piena soddisfazione del Cliente.

Varcolor, company belonging to the Gabrielli Group, is specialized in the field of continuous coil-coating process. The company, founded in 2000, has quickly emerged as the most active one in the field of "pre-coated steel" due to its purposeful disposition in research and development of new products.

The wide range of products meets the needs of customers who require high standards of technical quality, aesthetics and reliability.

The determining role played by its R&D department has allowed Varcolor to introduce in the market several products of new conception as absolute novelties, with technical and aesthetic first-rate characteristics.

Varcolor's mission is to renew the approach in its field through a new orientation towards the final customer, providing him not only with first-class materials but also with technical advice and service. Through the respect of the technical times of production and delivery, Varcolor supplies a further element of guarantee in relationship with its own customers.

Our most important resource is the people. The company is composed by a young and motivated Team, strongly oriented to the Varcolor philosophy: reaching the company's targets through the full satisfaction of all customers.

Polyester

* Metallo di base zincato
rivestimento $\geq$ Z100 o alluminio
* Galvanized metal base
coated $\geq$ Z100 or aluminium

VARHD⁺ è il nuovo e innovativo prodotto che rivoluziona il mercato dell'acciaio prerivestito.

Il reparto ricerca e sviluppo ha messo a punto un rivestimento organico con eccezionali caratteristiche tecniche e straordinarie qualità estetiche. Il metallo di base, che costituisce il supporto del prodotto, subisce un primo trattamento chimico. Successivamente, vengono applicati diversi strati di vernice superpoliestere in funzione del prodotto finale. Il prodotto può essere in tinta unita o stampato. Lo spessore totale di rivestimento organico può arrivare fino a 25/50 micron. Il rivestimento stampato simula materiali complessi come ad esempio l'effetto legno, muro, cotto o corten.

VARHD⁺ is the new and innovative product that revolutionizes the market of pre-coated steel.

The research and development department has developed an organic coating with exceptional technical characteristics and extraordinary aesthetic qualities. The base metal, which constitutes the support of the product, undergoes a first chemical treatment after which several layers of polyester paint are applied in function of the final product. The product can be plain color or printed. The total thickness of the organic coating can go up to 25/50 microns. The printed coating simulates complex materials such as wood effect, wall, cotto tile or corten.

VARHD⁺

varcolor[®]
acciaio prerivestito

VARHD⁺ eleva sul piano estetico l'offerta di acciai preverniciati arricchendosi di più colori. Diviene ancora più fedele alla realtà, con un realismo mai visto prima. Tra le possibili finiture è disponibile la goffratura su esclusivo disegno Varcolor: un elegante effetto a rilievo la cui percezione di naturale irregolarità rende il rivestimento molto più simile alle lavorazioni manuali rispetto alla comune goffratura meccanica. Con l'effetto goffrato VARHD⁺, lo spessore alza lo standard fino a 50 micron.

VARHD⁺, with the addition of more colors, elevates the offer of precoated steels from an aesthetic point of view. It becomes even closer to the reality for a realism never seen before. Among the possible finishes is also available the embossing effect on Varcolor's exclusive design: an elegant relief effect whose perception of the natural irregularities makes the coating much more similar to the manual work than the common mechanical embossing. With the embossed VARHD⁺ effect, the thickness raises the standard up to 50 microns.
